Importing and Editing Texts

BACKGROUND INFORMATION FOR LEARNERS

Our publication usually has a text. We use it to inform or persuade other people depending on the purpose of our publication document.

In MS Publisher, we can insert texts in several ways. Here are some tips:

By Inserting a Text Box

1. Go to the *Insert* tab.
2. Click *Draw Text Box*.
3. Click where you want to put your textbox in the canvass. A box will appear after doing this.
4. Inside the box, you can then type the letters or words that you desire.

By Inserting a Word Art

1. Go to the *Insert* tab.
2. Click *Word Art*.
3. Select the design that you want by left-clicking it. A dialog box will appear after doing this.
4. In the dialog box, you can put the letters or words that you want.
5. Then, click left-click Enter.

In editing our text, there are functions that you should know. They are found on the Home tab under the Font group:

1. Font style –this is where you can change the style of your font.
2. Font size –this changes the size of your font.
3. Font Color –this changes the color of your font.
4. Case Change – this is where you can change the font’s case. It may vary depending on what you want. They are as follow:

- Sentence case
- lowercase
- UPPERCASE
- Capital Each Word
- tOGGLE cASE

Also, if you want to copy from an external source such as website, other document and the like, you will need to use the *Copy*, *Cut* and *Paste* functions.

1. Copy –this is used when you want to duplicate a text from a source. It is done selecting your source and pressing Ctrl + C.
